

COMPANY PROFILE

Prudential India (P) Ltd. is specialized in innovative IT solutions and complex software projects development. Our company combines fundamental algorithmic research activity with practical applications in programming, web development & integration, multimedia development, custom IT systems design, testing and consulting. Through this tight integration of basic and applied activities, we managed to be at the forefront of the IT process.

Prudential India was established in 2002 with a customer centric approach to provide affordable solutions for organizations seeking web solutions, digital media solutions and design solutions that would be competitively prices and simple to maintain.

Our clientele ranges from Multinational Corporations to small & medium enterprises as well as NGOs & development sector organizations.

Every solutions provided by us is unique and innovative. Our approach has been always customer and market communication centric. We create solutions keeping your target consumer and audience in mind.

We have partnered with a variety of organizations including NGOs & charitable (Prayas, East & West, Ark Foundation, PPGVS...) and commercial organizations like WorldSpace Corporation, Nivatel Communications Inc. (USA).
